

Building Information Modeling - *Unit 2: Technology*

Wednesday, October 27, 2010

8:00 AM – 5:00 PM

AGC Office – 11950 Nuckols Road – Glen Allen, VA

BIM Technology is the second course in the AGC Building Information Modeling (BIM) Education Program. It covers the characteristics of common BIM applications in use today and processes for planning and organizing the use of BIM tools to deliver value.

The course emphasizes that BIM tools should support the new process that BIM brings to construction firms. And not the other way around. Learn about all the relevant tools available, their functionality and how they are related to the various construction phases before making a software purchasing decision.

Cost . . . A registration fee of \$395/member rate and \$800/non-member rate will be charged per attendee to cover the cost of the meeting facility, lunches, handout materials and refreshments.

Instructor . . . Michael Tardif of Grunley Construction (Rockville, MD).
