

SAFETY SUPERVISOR WORKSHOP

Friday, November 12, 2010

AGC office – 11950 Nuckols Road – Glen Allen, VA
8:30 AM – 4:00 PM

Taught by the Loss Control Specialists from the Hartford Insurance Group

Training of supervisory personnel is a vital component of a successful contractor safety and health program.

This Supervisory Workshop will provide supervisors with a good understanding of safety and health management, which is simply the methods and procedures to manage the company's safety and health program. In order to be effective, the safety and health program must be implemented and enforced fairly amongst all personnel and should not change by job site, work crew or supervisor.

This workshop provides supervisors with the necessary skills to involve and motivate construction employees, plan for complex construction operations, and recognize the financial impact that the safety and health program plays in the overall success of the company.

A registration fee of \$150/member rate and \$300/non-member rate will be charged per attendee to cover the cost of the lunch, handout materials and refreshments.
